FULL STACK DEVELOPE

Experienced React and Next.js Developer with three years of dedicated practice in crafting dynamic web applications. I am passionate about coding and known for my collaborative approach as a team player. My journey in development has equipped me with a strong foundation in React and Next.js, and I am eager to tackle fresh challenges and embrace emerging technologies. Committed to continuous learning, I thrive in environments that value innovation and foster a collaborative spirit.

WORK EXPERIENCE

Freelance - Nextjs

10/23-Present

SaaS Application

As a forward-thinking developer, I conceptualized, designed, and implemented "**Chat with Anyone**," a cutting-edge Next.js SaaS application that revolutionizes communication on a global scale. This innovative platform goes beyond traditional messaging apps by seamlessly integrating advanced language translation

- Manage web development life cycle: Planning, Requirements, Design, Build, Document, Test, Deploy and Maintenance
- Utilized **Firebase**, seamlessly integrating Firestore Database for efficient data management and Firebase Authentication for secure user logins, enhancing the robustness and scalability of the application in a unified solution.
- Design application that follows user experience and user interface best practices using **Shadcn/ui**.
- Empowered the application with global state management using **Zustand**
- Most of application UI is created from scratch using **HTML/TailWindCss**.
- Apply third party authentication using **NextAuth**.
- Integrate full payment workflow on collaboration with **Stripe**.
- Developed a robust billing system that tailors the user experience for premium members. Upgraded members enjoy exclusive benefits, unlocking advanced features and personalized services to maximize the value of their subscription.
- implemented **Dark Mode** toggling to update the UI based on user preference.
- used **TypeScript** to reduce the overall number of Bugs and Errors

CleverTech- Mern Stack

09/22-09/23

full stack developer

Worked on the development application using React and TypeScript resulting in a 20% increase in user engagement. Improved application performance by optimizing REST API calls and reducing load times resulting in a 15% increase in page speed. Collaborated with cross-functional teams to ensure timely delivery of project milestones.

- Developed 10+ modern React applications resulting in 15% improved user experience.
- Implemented REST APIs to connect the application to the backend services.
- Optimized REST API calls to reduce load times resulting in a 15% increase in page speed.
- Troubleshoot and maintained websites, ensuring fast and optimal performance.
- Utilized Git for version control across all projects, ensuring seamless team collaboration.

HelloWeb- React

11/21-06/22

web development intern

part of the development team working in frontend with react and back-end with nodeJs

- Gained hands-on experience with Javascript and TypeScript.
- Gained experience with contributing to various development projects.
- Assisted in maintaining and troubleshooting websites ensuring seamless user experience.
- Developed understanding of Sass, working on side projects and tasks

PERSONAL PROJECTS

Kn Beats (NextJs)

[demo-Github](#)

- Built a fully functional **e-commerce website** with Next.js, Sanity, Stripe, and Tailwind CSS.
- Implemented secure payment processing with Stripe.
- Enabled customers to browse and purchase products, add to cart, and view their cart.
- Delivered a modern and responsive platform for a streamlined online shopping experience

TikTok (NextJs)

[Livedemo-Github](#)

- Developed a dynamic **social media platform** using Next.js, Sanity, Tailwind CSS, and Google authentication.
- Implemented various features such as liking, commenting, uploading, and viewing videos.
- Enabled users to search for videos based on keywords and other criteria.
- Delivered a user-friendly and engaging platform that provided a seamless social media experience.

FilmPire (React)

[LiveDemo-Github](#)

- -Integrated with the TMDB API to provide users with up-to-date and accurate movie data.
- Developed a dynamic movie discovery and recommendation application using React and Material UI frameworks.
- -Implemented various features such as searching, browsing, and saving favorite movies to a personalized list.
- -Delivered a modern user interface that offers a seamless and engaging movie discovery experience.

Skills

- **Front-end:** HTML, CSS, JavaScript, React.JS, NextJs, TailwindCss, Framer motion, GSAP
- **Back-end:** Node.js, MongoDB, Express.js, RESTful APIs, database management, SQL, Appwrite(CMS), Sanity(CMS)
- **Soft skills :** Flexibility, Time management, Initiative, Self-motivated

EDUCATION

National engineering school of Carthage, Tunis, Tunisia

2018-2021

Degree in Computer Engineering

IPEIB

2014-2018

preparatory classes(Math-Phys)

CERTIFICATE

[CrocoCoder]

2021

- MERN stack Certification
